I voluntarily consent to outpatient care with Sonya Ruedlinger, NP

- I understand Sonya Ruedlinger, NP uses an integrative psychiatry and mental health approach with limited use of medications.
- I understand that the care I receive from Sonya Ruedlinger, NP may be considered non-conventional. Such services are commonly referred to as integrative, complementary, alternative or holistic services. This can include nutritional and supplement recommendations, mindfulness and breathing practices, and other mind-body approaches to care. While many of these techniques have been long practiced and researched and found to be effective, many are still considered "investigative" or "experimental". The treatment plan is a collaborative effort and I recognize it is my responsibility to let Sonya know which approaches I would like to try and those with which I do not feel comfortable. I recognize it is entirely my choice. By accepting these treatments I agree to accept the risks explained to me about these treatments.

I have read and understand the foregoing and understand that it is my responsibility to discuss any concerns I have about any and all parts of my treatment plan. I understand the nature of these health care methods and consent to counseling and treatment.

1. To schedule an appointment, please call our office at 317-978-0257 or schedule online at indybehavioralhealth.com \_\_\_\_\_ **(initial)**
2. One day prior to the appointment, the office will try to reach you directly to confirm the appointment. If we are unable to reach you, we will try your alternate contact information. Please be aware, though, that this reminder service is a **courtesy** to our patients and that they are ultimately responsible for charges incurred due to a missed appointment. \_\_\_\_\_ **(initial)**

## **COMMUNICATIONS**

### Email

Email is not a secure form of communication.

Email messages may be read by staff when handling routine, non-clinical matters.

Email may be printed and placed in your medical record. Employers may choose to read email sent from work and have the legal right to do so.

Email may be forwarded to staff for handling, if appropriate.

If you have a question about changing your medication, you will need to schedule an appointment. Email cannot adequately inform you of the risks and benefits of changes in treatment.

Email is NEVER appropriate for urgent or emergency problems! In an emergency, call 9-1-1 or go to the nearest emergency room.

Text Messaging is also to be limited due to lack of security and confidentiality. Text messaging may be used to inform of appointment date/time or other non-clinical, routine information. It should not be used to discuss lengthy concerns including side effects, medication changes, treatment planning, etc. Questions/concerns related to medication or treatment planning deserve a greater level of attention and care. These issues should be addressed by scheduling an appointment.

### After-Hours Emergencies

This clinic does not have an after-hours service. If you think you may be in an emergency situation (thinking or planning to harm yourself or someone else, medication side effects or withdrawals, etc.), then this is an Emergency and you should call 9-1-1 or go to the closest Emergency Department.

## **COMMUNICATIONS**

**MEDICATION REFILLS**  
**INCLUDING TRIPPLICATE PRESCRIPTIONS**

The following policies are designed to improve the efficiency of the office and communication between you and the staff. Please **read, initial each statement** and **sign** at the bottom of the page to indicate **your understanding** of the policies.

It is your responsibility to fill your prescription before you run out of medications, and to protect your medications and controlled substances as carefully as you would your money or jewelry.

Triplicate prescriptions for controlled substances constitute an even more burdensome medico-legal and administrative responsibility. I do not prescribe addicting medications (medication with high abuse potential) for patients with a history of substance abuse, particularly those that the patient has already abused. Also, we do not refill lost, misplaced, stolen or otherwise unavailable addicting medication except under very special circumstances, and even then we make only one exception. It is your responsibility to fill your prescription before it expires. \_\_\_\_\_ (initial)

Reasons such as:

1. "I went out of town and left my medication behind when I returned home."
2. "The airlines lost my luggage which contained my medications."
3. "My spouse/roommate/girl or boy/friend/son/daughter/pet etc... stole my medication."
4. "I gave a few pills to my spouse/significant other .... because he or she needed them."
5. "I opened my medication above the sink / toilet/ pool/ lake .... and it fell in."

are not valid reasons for early refills of medication, so please do not ask! \_\_\_\_\_ (initial)

**Refill of prescriptions require periodic office visits with the doctor.** It is important to comply with your scheduled doctor's visit to have a successful treatment plan. Standard medication management and follow-up is every 2 to 4 weeks or otherwise specified. Scheduled visits must be followed in order for the prescription(s) to be filled. \_\_\_\_\_ (initial)

Thank you for your anticipated cooperation.

I understand and will comply with these policies. \_\_\_\_\_ (initial)
